### The Artesian:DueDil Company – do better business faster

In September 2021, Artesian and DueDil announced a merger.

*“This exciting merger announcement brings together two exciting UK Fintechs both of which play a key role in the broader NatWest Group. Artesian providing client relationship intelligence for our frontline and business development teams and DueDil with their integration with Mettle helping us completely automate business account opening. I am looking forward to seeing what the combination of the two great innovators will bring”*

**Ian Isaac Managing Director – Lombard**

**Artesian** is known for its strong in frontline engagement capabilities, bringing engagement insights from social and news and a powerful rules-engine to manipulate data to create engagement signals delivered through an appealing web interface.

**DueDil** is strong in middle and back-office automation, with a powerful data-ingestion, augmentation and enrichment engine that focuses on delivering compliance information via an API.

The **merger** provides a unique **single-platform** to allow Customers in the regulated industries of Financial Services, Banking and Insurance to help these customers solve three key challenges:

- Find the right customers
- On-board them faster
- Keep them for life

# Job Specification - Senior dotNet Developer

**Do better business, faster.**

**Find the right Customers**

Pinpoint the Customers you want based on risk profile and opportunity - use insights to get them talking about the things which are important to them

**Onboard faster**

Frictionless straight through onboarding with robust compliance and audit

**Keep your Customers for life**

Real-time insights and continuous in-life monitoring to identify risks and opportunities and assist with customer remediation

The only platform that links customer engagement, acquisition, onboarding and remediation

Our newly merged company will serve over 600 customers including the UK leading banking, financial services and Insurance customers which include:

**600+ customers impacting millions of businesses**  
Banking, Financial Services & Insurance

## Artesian: DueDil Core Values

We try to hire like-minded people which is why our core values are important because if you join us it is pretty important that you fit right in. Ask yourself, do they describe you?

- **Growth Mindset** – you want to grow and improve (you, your company, your customer)
- **Resourceful** – you find ways to get it done
- **Accountable** – you do what you say
- **One Team** – one boat, one race

## Profile of the role

We have openings in our rapidly growing development team for talented and ambitious software engineers. The job will primarily involve the design, development and evolution of an exciting and challenging new WEB based business applications. You will be working with cutting edge techniques and technologies in a small team environment where you will be involved in almost every aspect of developing this innovative product. Career development opportunities are ripe for the right individuals to develop and grow with the organisation.

**Key Concepts:** WEB development, Big Data, Text mining, NLP, SaaS, CRM, Social Media, Distributed processing, Data-Warehousing

**Development environments/tools:** Visual Studio; dotNet 4+, MVC, ASP, Lucene, Mongo, SVN, OMq, Team City, JIRA, Azure

**Programming languages/frameworks:** C#, JavaScript, MVC, WCF, DI, JQuery, Bootstrap

**Relational databases:** SQL Server

### Role:

We are seeking a developer to join our team and to work on a variety of assignments under the guidance of our technical leaders and product management team. The role will be based at our offices in Winnersh (Berkshire). Duties will include core product development as well as working closely with our product teams on existing projects and supporting existing clients. There are also opportunities to get involved in mobile (phone and tablet) development as well as integration work with leading CRM platform such as SFDC and Microsoft Dynamics.

## About you – your attributes

The successful candidate will probably possess the majority of these attributes:

- Degree educated (or equivalent)
- At least 5+ years programming experience, C#/dotNet/ASP essential

## Job Specification - Senior dotNet Developer

- A keen interest in and passion for programming, excellent OO knowledge, enthusiasm for modern design patterns like DI & ORM etc. and a desire to design and build architecturally strong solutions
- Good general knowledge of relational databases, the social media landscape, SaaS, business intelligence and analytics landscape
- Experience of business applications, with particular emphasis on CRM with SaaS style deployment characteristics
- Team oriented, tenacity and enthusiasm for quality
- Ideally a resident of the Thames Valley area i.e. roughly within the Reading-Slough-Guildford-Basingstoke quadrangle

### How to Apply

If this role sounds like you, please send your CV to [people@artesian.co](mailto:people@artesian.co)
